

Jorgensen Album Price List

(valid until 28th February 2010)

Jorgensen Albums are made to the highest quality and are available in a large range of cover materials and styles.

Jorgensen Albums are matted albums where the photographs are mounted under white or black mattes.

The matted pages can be designed with any layout of photographs and the mattes can be either white, black, white core or black core.

The standard album has a choice of vinyl or chamois finish in a variety of colours and textures. Optional cover upgrades are available if you prefer another material such as leather or wood.

Art Style Albums have no metal corners, a hard cover and square spine.

Pro Style Albums have taped page edges with metal corners, padded covers and a rounded spine.

The included album will have the number of leaves shown in the table below and depends on the size and style of the album you select. Additional leaves can be added for the price indicated.

Size	Album	# leaves included	Price per additional leaf
12" x 12"	Art Style	20	£25
12" x 12"	Pro Style	18	£30
16" x 12"	Art Style	18	£25
16" x 12"	Pro Style	15	£30
14" x 14"	Pro Style	15	£30
16" x 16"	Pro style	12	£35

As a guideline, we find a typical Jorgensen album will average about 5 photos per leaf hence a 15 leaf album will typically hold about 75 photographs with a mix of large and small photographs.
